

## Antiaging treatment

Thee Divine Spa's revolutionary anti-aging experience rejuvenates the body by means of electromagnetic resonance.

Simply put, through electro magnetic resonance, human cells, which are in turn composed of molecules and atoms are manipulated by soothing and relaxing massage to create an increase in human growth hormone – a substance that plays a crucial role in counteracting the aging process.

As relevant as the therapeutic effects is the sense of tranquility, calm and euphoria experienced after each treatment.

## Detoxification

Purifying your entire system simply involves immersing your feet into a foot bowl filled with water and a double element that reacts with water and salt to ionize the water within the foot spa. When the detoxification begins, it generates a magnetic bio-field similar to that of a living being. When the feet come into contact with this the magnetic field within the foot spa, an interaction with the body's own magnetic field rebalances and reenergizes the system.

Detoxification at THEE Divine Villa's spa is achieved in a space of total calm and as the body is being cleansed and rebalanced, the sound of the Roaring River in the near distance seems to wash all mental and physical impurities away.

## Body Treatments

### **Kiyara Rituals**

All Kiyara Rituals are multi-step body minded experiences, using exotic aromatic ingredients from nature.

### **Pina Colada Body Polish**

A delicious blend of fresh pineapple and coconut, rich in enzymes and natural oils that clarifies and softens the skin, exfoliating and nourishing.

### **Caribbean Cooler**

A refreshing aloe cocktail that instantly soothes and heals sunburned and dehydrated skin from head to toe.

### **East Meets West**

The ultimate exotic tropical experience improves skin texture and circulation and heals any skin imbalances with a combination of traditional herbs and rich sensuous local ingredients.

### **Roots Renewal**

This treatment harnesses the healing properties of Jamaican herbal roots in a luxuriant hydrating and nourishing elixir, which envelops you in a delightful spicy aroma.

### **Blue Mountain Coffee Toner**

A specialty cure that increases cellular metabolism and helps break down cellulite. This aromatic treatment also cleanses the body of impurities and excess fluids.

## Body Massages

### **Lymphatic Drainage Massage**

A gentle massage technique that helps the body eliminate toxins and retained fluids.

### **Holistic Relaxation Massage**

Combination of holistic relaxation techniques, this massage is a blissful way to relieve everyday stress.

### **Deep Tissue Therapy**

Deep work on the underlying soft tissue to relieve chronically held stress, break down scar tissue, and speed muscle recovery after intense exertion.

### **Couples Massage**

A dynamic massage for two, overlooking the sea with Caribbean Breezes and the soothing sound of waves.

### **Stone Massage**

Warmed river stones from the island are used to massage the body and bring about a deeply peaceful sense of relaxation melting tension from each muscle.

### **Apito Stone Energy Balancing**

Calms and balances the energy of the body through heat, specific placement, and the magnetic properties of these sacred stones. Profoundly relaxing.
